

EXPERIENCE

Full Stack Developer

OneRoot

07/2025 - 12/2025

Bengaluru, India

A It based company which handles the client

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built secure and scalable REST APIs for authentication and data management.
- Designed responsive frontend UI and integrated it with backend services.
- Implemented authentication, authorization, and role-based access control.
- Optimized application performance and improved API response time.

Hardware Designer

Sandcomm Electronics

05/2025 - 07/2025

Near Govt polytechnic vijayapura

lot besd company.

- I learned hardware designing
- I have learned communication skills

PROJECTS

AI resume analyzer

<https://ai-resume-analyzer-smoky-eta.vercel.app>

A smart system that evaluates resumes, extracts skills, and generates job-match scores using AI.

- Tech used: React.js, Node.js, Tailwind CSS, Shadcn, TypeScript.
- Developed an AI-powered resume analyzer to evaluate resumes against job descriptions.
- Used NLP techniques to extract skills, experience, and keywords from resumes.
- Implemented resume scoring and matching logic to measure job relevance.
- Built a web-based interface for resume upload, analysis, and feedback.

Shiraj Drive – Cloud File Storage App

<https://shiraj-drive.onrender.com>

An application designed to store, update, and manage product details digitally

- Designed and developed a Store-IT system to manage product records digitally.
- Implemented add, update, delete, and view operations for inventory data.
- Created a simple and user-friendly interface for store management.
- Improved record accuracy and reduced manual paperwork.

Dture –Online Debate Platform

<https://dture.vercel.app>

A platform designed for hosting structured online debates with speakers and audience interaction

- Developed an online debate platform allowing users to create and participate in live debates.
- Implemented speaker and audience roles with real-time interaction and voting.
- Built a responsive web interface for a smooth user experience across devices.
- Enabled argument tracking and debate scoring to generate structured results.

AI CodeReviewer

<https://coderiviewer.vercel.app>

AI-powered Code Reviewer built using React, Node.js, and Google Gemini API that provides real-time code analysis, optimization suggestions.

- Built an AI-powered Code Reviewer using React, Node.js, and Google Gemini API to analyze code quality, logic, and best practices in real time.
- Implemented a live code editor with instant AI feedback, improving debugging efficiency and code readability.
- Designed a scalable API-based architecture with separate frontend (Vercel) and backend (Render) deployments.
- Added multi-language support and structured review responses (errors, optimizations, suggestions).
- Optimized UI/UX for developers with syntax highlighting and fast response handling.

EDUCATION

Diploma in Electronics and communication

GPA
10 / 9.5

- Pursuing a Diploma in Electronics and Communication from Government Polytechnic Vijayapura, graduating in 2026, with a CGPA of 9.4. Gained strong knowledge in C, C++, Embedded Systems, and communication skills.

SKILLS

Programming languages

React js	java script	Type script
Ejs	C/C++	python
		Expo

Frontend development

Web development	Type Script
Next js	Shadcn
	CSS
TailwindCss	HTML
	Figma
Framer Motion	Responsive Design

Backend development

Node js	Mongo DB	REST Api
JWT	Express js	Axios
Supabase	Authentication	devops

Hardware and others

Git	GitHub	Assembly language
PCB	Communications Skills	PMS
Basic Electronics	Microcontrollers	
Problem Solving		

LANGUAGES

English
